## KNITTING A BETTER FUTURE

### MISSION AND GOALS

In this very dynamic industry, we are thriving and excelling towards the future. We are planning to increase our set up to 20 lines. Our printing facility has 40,000 production capacities per day and we are also planning to expand on this department. Recently, Abloom's dyeing facility with a capacity of 20 tons has started. The company is planning to expand its 20 to 40 tons within 2023.

### VISION STATEMENT

Textile industry has spread a lot in the recent years. We have grown with it. Regarding the matter of what we want to do in the future is not something, which could be said with ease. Our directors are dedicated to take Abloom to the top. In the future we want to work with multi-billion dollar companies, who have made their mark in the fashion world, companies like H&M, Mango, Target, ETC. We also have an aim to expand largely on the backward linking divisions.

### ABOUT ABLOOM

Being one of the most celebrated up and comers of the garment industry we pride ourselves on producing the best quality garment products. Established in 2005, we grew exponentially from a 400 people team to now 1800 People firm. During these 15 years we earned "Best supplier for on time delivery 2015", "Supplier of the year 2015" and "Best supplier for Quality in South Asia 2018" from our trusted buyer Auchan. We are now a factory of 14 sewing lines, state of the art knitting, printing facilities and 45000 pcs capacity/month. New dyeing factory has already started with 20 tons capacity and state of the art fabric dyeing and finishing capabilities.

### CORPORATE SOCIAL RESPONSIBILITIES

Being in one of the least developing country we understand that we have certain responsibilities firstly, towards our own employees, neighbors and the local community. Therefore every year we engage in a bunch of events to help the society. It brings us great pleasure to say that we have implemented the "Universal Healthcare Plan" collaborating with Weave Our Future and Bangladesh Diabetic Federation. This initiative makes sure that our employees get free treatment from doctors who are available in the factory 5 days a week, from 10 selected hospitals under diabetic foundation and 24 hours hotline phone number of doctors for assistance.

## **DIRECTORS TESTIMONIES**

### **MOHSIN RABBANI** MANAGING DIRECTOR

As SalamuWalaikum,

This is my great pleasure to talk to you and hope this message shall find you in good health. I am very happy to say that Abloom Design Limited has stepped into its 2nd decade as a knit garment factory in Bangladesh. Besides, I am very thankful to all the stakeholder of Abloom Design Limited, who was beside us through thick and thin, supported us throughout the years and made us, the great company that we are today. Keep us in your prayers, so that we can achieve much more and keep giving your best wishes towards our firm.

Greetings .

---
